

bancArte (Bank Art) is part of a larger project - "Autori" - (Authors) - his mission:

Concrete creative work!

The Ancient Romans claimed: "Carmina non dant panem"! (Poetry do not give bread) We want to eradicate this curse! We will do it using: 5G networks, Artificial Intelligence, Blockchain technology and a virtual currency (ArtCoin), to support an ideal that will bring important economic repercussions throughout the world - we want the illusion of changing the world to become reality with the spread of art.

The idea animates us is inspired by the following shared observations:

- The only form art that who knows no crisis over the centuries and in every country is the goldsmith's art;
- Throughout in the time the value of gold has always sustained the artisan mastery which at times is sublime art;
- In figurative art today only the great artists are supported by wealthy admirers;
- However large and small genes live in poverty, forced by hunger to the most humble jobs;
- Turn art into gold, generating a perpetual virtuous circle, able to transform the artwork into new coin (ArtCoin), universally guaranteed and covered by an Bank. (bancArte - Bank Art)

Step by step - here is a brief idea:

- 1) A platform on internet will provide basic support for this economic revolution in the art's works market;
- 2) A chain of exclusive art galleries subsidized mainly by the sale of food and beverages in an arty locals;
- 3) Places where artists meet art collectors, critics and art-lovers;
- 4) Places of emotional momentum towards forms and colors;
- 5) The organization will evaluate the art works taking into account only the exchange price;
- 6) The artwork will be certified and documented on the technology platform (Blockchain);
- 7) A buy-back guarantee equivalent to 50% of the value paid will be issued in favor of the work of art;
- 8) The platform will only deal with works of art ranging value from 1,000.00 to 100,000.00 euros.

An idea that is self-financing in this way:

- a) For every work of art sold the platform will cash a commission of 11%;
- b) The seller (artist or owner) will pay a 5% duty for the repurchase guarantee fund;
- c) Only the manager will have to pay for any works of art that are being repurchased;
- d) All redemption must be done without never resorting to guarantee Fund;
- e) The manager will can recover what he paid by reselling the art work to market price;
- f) Any gain on reselling will be divided equally between the guaranty Fund and the management platform;
- g) Guaranty Fund account will be open set up in a primary international bank;
- h) The Fund will have to be provide timely information to stakeholders at all times and on all related data;
- i) All artist can will be know with the total amount of the deposits accumulated to guarantee their works of art;
- j) The artists will not be able to cash the guarantees or monetize the account;
- k) The artists given to them but will only be able to use them to estimate their works of art;
- l) Artists can use the bank guarantee value to estimate and finance their art-works;
- m) The works of art (*) can will be paid to the artist also in artCoin;
- n) The artists on the platform will be provided a debit card to settle accounts with bancArte manager;
- o) When the guarantee Fund will be big enough, the third part of its amount, can will be invested to promote art.
